# Message from the Chairman

Welcome Message  
By **Mr. Momoh Jimah Oyarekhua**  
President, Crude Oil Refinery-Owners  
Association of Nigeria (CORAN)  
Chairman, OPAC Refineries

It is with great pleasure that I welcome you all to the **CORAN 2025 Summit**, a landmark gathering of visionaries, policymakers, investors, and industry leaders committed to shaping the future of Nigeria's and Africa's refining landscape.

At CORAN, our vision is clear – to transform Nigeria from a heavy importer of petroleum products into a self-sufficient refining nation and, ultimately, a net exporter within Africa. This summit, themed **“Refining - Key to Energy Security in Africa,”** serves as a vital platform to advance this mission by fostering dialogue, innovation, and collaboration among all stakeholders.

Africa's path to energy security depends on our ability to refine more of our crude oil locally.

By strengthening refining capacity, we can stabilize fuel supply, reduce dependence on imports, retain value within our borders, and create jobs that empower our people. The CORAN 2025 Summit provides a unique opportunity to explore policy reforms, financing strategies, and technological partnerships that will make this vision a reality.

As we deliberate on integrating refining and petrochemicals, promoting modular and large-scale

projects, and enhancing regional cooperation under AfCFTA, I urge all participants to engage with purpose and share insights that drive sustainable progress.

Together, let us commit to building a resilient and self-reliant energy future for Nigeria and Africa – one refinery sector, one partnership, and one innovation at a time.

Welcome to the CORAN 2025 Summit – where Africa's refining renaissance begins.

– **Mr. Momoh Jimah Oyarekhua**  
President, CORAN

## Building a Legacy of Indigenous Energy Leadership

From wellhead to refinery, Waltersmith embodies the vision of a self-reliant Nigerian energy sector. Our journey spans upstream exploration, modular refining, and the development of an integrated energy & industrial park that drives national impact and sustainable prosperity.

As we advance Nigeria's energy transformation, our commitment to local capacity, innovation, and lasting impact remains unwavering.

Publicity Secretary - CORAN ExComm.

OMSA PILLAR ASTEX COMPANY Limited (OPAC Refineries) is a wholly privately owned indigenous company duly incorporated in Nigeria to refine crude oil and supply clean fuels in Nigeria and Sub-Saharan Africa. We are the owner and operator of the 10,000 barrels per day modular refinery located at Umuseti, Kwale in Delta State, Nigeria.

OPAC Refineries through its partners is equipped with the technical competencies to sustain its market leadership in providing modular refineries and storage facilities for refined petroleum products.

Our Products include: Naphtha, Automotive Gas oil (AGO), Low Sulphur Fuel Oil (LSFO) and Dual Purpose Kerosene(DPK).

Our expansion plan will increase the plant's capacity to 60,000 barrels per day with additional investments to process our Naphtha into Premium Motor Spirit (PMS).

Since its establishment in 2002, OMSA has been delivering services and operations with a vision of fulfilling an integrated energy value chain by adhering to the highest international standards and practices. Renowned for providing fast, reliable, and high-quality bunker services, OMSA excels in the trading and physical supply of bunker fuels and in delivering superior petroleum products throughout the West African region.

At OMSA, we understand the unique operational challenges our clients face. Our extensive local expertise, combined with our international reach, enables us to offer tailored solutions that meet the distinct needs of our customers.

As the promoters of OPAC Refineries, a 10,000 barrels-per-day modular refinery in Delta State, Nigeria, OMSA continues to broaden its capabilities and optimize the supply chain. OPAC Refineries, as a key affiliate, enhances our operational efficiency by offering a dependable local source of refined products, reinforcing our value chain, and ensuring smooth integration from production to distribution.
